

Powerful Solutions

to Hand-Held Drilling

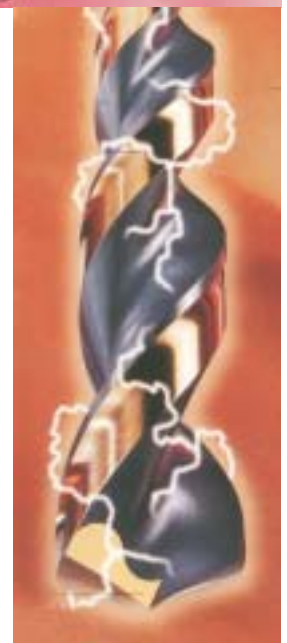

When you need a high performance drill for your most demanding applications,

Foster & Company has the solution. Our high performance PowerBit drills, unique design and black and bronze oxide finish, powers through the most difficult-to-drill applications.

Engineered for Power

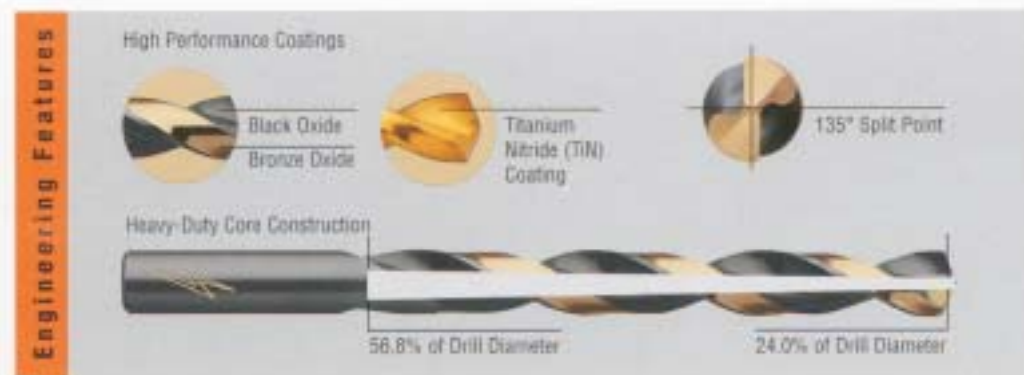

PowerBits powerful combination of performance features:

- Friction-reducing black and bronze oxide surface treatments for higher drilling speeds.
- Unique spiral design improves chip ejection and coolant flow to point.
- Heavy-duty core for increased strength and reduced breakage.
- Premium industrial grade high speed steel and heavy duty construction for increased strength, longer life and closer tolerances.
- 135° self-centering split point prevents “walking” and provides quick penetration

A Size and Style for Every Application

PowerBits are offered in a wide range of fractional, wire, letter and metric sizes; in jobber and stub lengths; with straight and reduced shanks; and in a variety of set configurations.
